

User Agreement

USGS has started processing your request for selected geochemical reference materials from our inventory. Before we can complete the transaction it is required that you read the statement below and countersign at the bottom. The form must be return to the USGS before we can complete your request. This form will be kept on file at the USGS for a period of three years and may be used for future orders.

“The GRMs are provided pursuant to USGS Technology Transfer Authority, 15 USC 3710 (a) as amended; under the following terms: 1) the recipient is using the material for laboratory research or analytical purposes; 2) the recipient intends to use these materials as part of their normal business operations; 3) the recipient is unable to find comparable quality reference material from commercial United States sources.”

In 2006, the USGS will be revising its ordering and pricing procedures until then we are requesting that our customers countersign the bottom of this letter and fax it back to us at **303-236-3200**.

USGS will mail the above samples after we have the countersigned letter in our file.

If you have any questions regarding this order or form please contact me

Sincerely,
Stephen Wilson, PhD
Coordinator, USGS
Reference Materials Project
